

# Southern District Dental Society 2024 Fall Meeting

Sleepy Eye Event Center  
Friday, September 6, 2024

**Topic: *Endo-Resto: Modern Tooth Preservation***

**Speakers: Michael W. Regan Anderson, DDS, MS  
and Dave Wold, DDS**

Drs. Regan Anderson and Wold will explore contemporary approaches to prolonging the lifespan of our patient's dentition. They will review the diagnosis, prognosis and outcomes of endodontic therapy and the benefits of maintaining teeth with suspected endodontic disease. Discussions will involve not only root canal therapy and retreatment, but also root-end surgery.

They will also discuss novel approaches in the practice of biomimetic dentistry. We can maintain teeth longer and treat them more conservatively than in conventional restorative dentistry through conservative tooth removal and high-quality bonding protocols. It is well established that a high-quality restoration is essential for the long-term success of endodontically treated teeth, and the doctors will discuss material choices and applications that allow dentists to remove less tooth structure. We may be able to extend the survival of these teeth with stress reduction measures, utilization of fiber composites, non-retentive adhesive restorations, and other techniques in the name of preserving tooth structure.

*Dave Wold D.D.S., obtained his Doctor of Dental Surgery degree from the University of MN in 2013. He practices in Rochester at Penz Dental Care. In 2020 he completed the Biomimetic Mastership Program with the Alleman Center of Biomimetic Dentistry and joined on as faculty with the Alleman Center in Jan 2021. His clinical interests include minimally-invasive, adhesive dentistry and management of cracked teeth.*

*Michael Regan Anderson D.D.S., M.S., graduated from Whitman College in Washington State and the University of MN School of Dentistry (DDS, MS). He is a Board-Certified Diplomate of the American Board of Endodontics. He practices in Rochester at Zumbro Valley Endo.*

## **Schedule**

7:15 a.m. Registration/breakfast

8:00 a.m. – 11:45 am Lecture
